

EPT-7056

Features:

- ⦿ Precision wire cutting EDM vise is used in conjunction with the high precision wedm;
- ⦿ Property of stainless steel, treated by casting, vacuum heating and deep cryogenic forming and finished; grinding molding, finally the vise with good stability, good rigid without deformation;
- ⦿ The alignment can be done on horizontal and parallel both side along X、Y、Z three axis to reduce workpiece positioning correction time, result in the increasing of machine working efficiency;
- ⦿ Great right angle design can the appropriate extension clip to hold scope, can clip to hold to compare tongs to open mouth a largish work piece;
- ⦿ Recommended maximum load capacity of 10Kg.

Specifications:

- ★ Parallelism within: 100mm/3um;
- ★ Squareness within : 100mm/5um;
- ★ Material: SUS420&SUS440(Stainless steel) ;
- ★ Hardness: HRC50° -55° ;
- ★ Clip to hold scope: 0-160mm.
