

# Rectangle permanent magnetic chuck: VXPME

fine-pole chuck with integral flushing for sinker EDM's

- integral flushing hole system in top plate for suction or pressure flushing of erosion material
- fine pole with inter-pole design minimises magnetic flux height to ensure free flushing of erosion material
- fully saturating magnetic design with positive-off ensures consistent performance across entire chuck face and full workpiece release
- fully submersible for use in EDM baths
- standard 5 year warrantee!

- **Standard Sizes**

Cat. No.	L	W
VXPME.1225	250MM	x 120MM
VXPME.1515	150MM	x 150MM
VXPME.1525	250MM	x 150MM
VXPME.1530	300MM	x 150MM
VXPME.02040	400MM	x 200MM
